- Floating plates for gentle styling
- ThermoShield technology for less heat damage
- 50% faster straightening**
- 2 x ionic care*** for frizz-free shiny hair

5000 Series

Straightener

Highlights

ThermoShield technology

ThermoShield technology lets you style with less heat damage. Its sensor regulates the temperature so that your hair gets the ultimate, even styling it deserves from root to tips.

50% faster straightening

Smooth plates help the straightener glide smoothly through the hair, so you can spend less time styling and more time enjoying the same great result.

2 x ionic care

This powerful ionic system intensifies your hair's shine with 2 x the ionic care per styling session. Charging your hair with millions of negative ions per cubic centimetre eliminates static, conditions your hair and smoothens its cuticles, so you can enjoy frizz-free hair with a vibrant shine.

Argan oil-infused plates

The straightener uses ceramic plates infused with argan oil to make styling fast and effortless, with a gliding action that feels as silky smooth as your hair looks.

Floating plates

The advanced ceramic floating plates move to adjust the pressure on the hair. This ensures even heat and pressure on the hair for good styling performance.

Create your favourite styles

From sleek and chic straight hair to effortlessly casual waves or head-turning curls — you can do it all. What will it be today?

BHS520/00

Wide temperature range

Choose from a temperature range from 120°C up to 230°C to secure long-lasting results while minimising the risk of hair damage.

105 mm long plates

The longer 105 mm plates enable better contact with the hair to help you achieve perfect straightening results more easily and in less time.

Innovative temperature display

The unique combination of 360° temperature wheel and LED display gives you absolute temperature control.
