Highlights

Free from routine

Enjoy the smooth-skin feeling that goes on and on. The epilator can give you freedom from hair-removal routines for up to 4 weeks.

No mess, no stress

Enjoy an easy and super smooth fix at home with this cute epilator. It catches hairs as short as wax, without the hassle of salon visits or creating any mess. Seriously.

Designed to be eco-friendly

A one time purchase with paper-based packaging, no batteries and a handle made from 50% recycled materials – this epilator aims to have minimal environmental impact.

Gentle on your skin

The massage cap is perfect for beginners to get used to epilation and designed to ease the epilation sensation.

Don't miss any hairs!

The LED light is here to help you spot even the finest hairs and prevent any from escaping!

Your routine, your way

Personalise the epilation with two settings for more control over the speed and intensity of your hair removal. Get it done in as little as 10 minutes on both lower legs.

2-in-1 starter kit

Smoothness starts here. Exfoliate to help prevent ingrown hairs. Pre-trim longer hairs with the comb for more skin comfort. Epilate the desired areas and click on the massage cap for a gentler epilation sensation. And then, when you're on the go, pop your epilator in the pouch.

Cute and compact

Our palm-sized epilator has a non-slip grip, making it as easy to use as it is attractive to look at. Whether it's for storage or travelling.

Touch up

Touch up any body part with the shaver head. Do it the way you like.
